

1. Company Profile

Marinex GmbH, a shipping, trading, engineering and logistics company, has been established in Kiel, Germany by Halil Cemil Telli in 1982. Aykor A.S., sister company of Marinex has started her operations in Istanbul, Turkey the following year.

Marinex - Aykor Group has been globally participating to private, public and military tenders on procurements for systems, system integration, spare parts and supplies for 29 years.

Activities, spread over to five continents, have been successfully executed with the dedicated support of its liason office in the United States, along with the representative companies located in South Korea, Bangladesh, Greece and Australia.

Aykor offers engineering services and handles project management activities at its own head office building in Istanbul with a total space of 700 m².

Marinex, with its 1000 m² office and warehouse space also owned by the group, performs contract management activities; like financing, delivery handling and quality control.
